

Sensory Friendly Easter Egg Hunt

Often, the crowds of people and loud noises that can happen at community Easter events and egg hunts can be overwhelming for children with exceptional needs. Bluffton Parks department decided to create an event that will be less stressful for these individuals and their families to enjoy the Easter activities that so many of us have experienced.

Children with various sensory disorders and other special needs are invited to the Bluffton Parks department Sensory friendly Easter egg hunt to enjoy an Easter event just for them, complete with furry farm animals and a subdued Easter-egg hunt. Registration is required for this event by calling or emailing the Bluffton Parks Dept. at 824-6069 or events@blufftonindiana.gov. The free Sensory friendly egg hunt will be held at Lions Park on April 1st starting at 6:30pm.
