

Plant Swap

For those who have a green thumb, we are planning a plant swap on Saturday, May 8th at Roush Park Large pavilion (925 W Silver) at 1pm. Here is how it works:

1. People in attendance will be split into smaller groups for alternate turns.
 - Your group and turn will be determined by order of checking in/arrival.
 - Once the swap starts there will be no new participants added so be on time!
 2. Bring up to 3 plants/healthy starts to swap.
 - For each plant (up to 3) you bring you will leave with (up to 3) others via timed swap interactions.
- If you bring more than one plant to swap, **NO DUPLICATES** of spider plants, aloe, golden pothos, mother of thousands, or heartleaf Philo. One each of those varieties per person.
- Healthy Cuttings are acceptable
 - Check your plants for pests before planning on attending. No one wants to take home unwelcomed guests.
