The Bluffton Parks Department will be holding a public meeting on Tuesday, August 17th to go over the 5-year Master Plan results and we want to hear your ideas to improve our facilities and programs as we start to focus on an action plan. This meeting is a very important part of our Master Plan process that we need to complete in order to seek funds from the LWCF (for which we are currently applying for). Please put this date on your calendar and join us at the new pavilion at Washington Park (710 S Mulberry) at 6 pm.
