Please help promote the vaccination clinic in your area on social media and encourage other community leaders to promote it, too. Visit <https://www.coronavirus.in.gov/2707.htm> for information on hosting and promoting a mobile event, including flyers and social media.

Before the clinic begins, IDOH will send texts and emails directly to residents urging them to get their vaccination at the mobile clinic.

Thank you for your help to protect the health and safety of Hoosiers during this unprecedented time.
